The Wood Dale Historical Association website launches today, Sunday, September 10, 2017! The website is dedicated to the digital preservation of the history of our community. The goals of the site are to digitize and preserve historical records of Wood Dale that now exist on paper, to record and preserve the memories of Wood Dale residents, and to preserve the names and faces of as many Wood Dale residents as possible.

While visiting Fall Fest 2017, stop by the Wood Dale Library table and have your picture taken to be posted and preserved forever on the historical society's website.

If you are 7 years old today, in 20 years your children will be able to see your picture; in 50 years, your grandchildren will see your picture, and in 100 years, your descendants will be able to see you as you were in 2017!
